THE NIRVANA PHILOSOPHY

Nirvana Health Products® was created from a desire and passion in natural health, healing and caring for our environment.

'We have a particular focus on the issues of excess sugar, synthetic food additives and heavily processed table salt. We noticed that too many marketed natural products contain inferior materials and potentially harmful chemicals, so at Nirvana Health Products® we endeavour to create the purest, highest quality products available in the industry.'

AROMATHERAPY
- Himalayan Bath Salts..... 30

IS YOUR STEVIA POWDER ALL STEVIA?

Are you actually buying PURE Stevia extract?

Does it contain fillers and other ingredients? Have you read the 'ingredients' list?

Nirvana Organics® 100% Pure Stevia Extract Powder is just that – **100% PURE STEVIA EXTRACT POWDER**
No blending with other ingredients to 'bulk it out'. One tiny (included) measuring spoon (1/35 tsp) of Nirvana Organics® Pure Stevia Extract Powder is the same sweetness as 1 teaspoon of sugar - so a little goes a long way!

NIRVANA STEVIA - *The Healthy Alternative to Sugar*

If your customers are following a weight management program, need to monitor blood sugar levels or simply prefer healthier foods, then Nirvana Organics Stevia™ may be the answer. It is a safe natural way to add sweetness to the diet without having to use sugar or artificially derived chemical sweeteners that are in many low calorie 'diet' products.

Nirvana Organics® has searched the world to find this alternative - the naturally sweet, zero calorie herbal extract, Stevia - organically grown and extracted from the Stevia rebaudiana Bertoni plant. The key to a great tasting Stevia product is the quality of plant, growing conditions, extraction process, and care in manufacturing. It adds the perfect sweet taste to food and beverage, without the calories and carbohydrates.

Stevia extract is very concentrated (many times sweeter than sugar). To ensure your customers use the correct amount, Nirvana Organics® Stevia is available in measured tablets (mini and original), liquid concentrate and extract powder (including a handy measured scoop), so they don't have to worry about using too much.

NIRVANA STEVIA 100% PURE EXTRACT POWDER

Australian Certified Organic Pure Stevia Powder available in 3 different sizes. Included is a tiny measuring spoon for your convenience. 100% Pure Stevia Extract is up to 150 x sweeter than sugar! *1 heaped tsp equals sweetness of 1 cup of sugar.*

NIRVANA STEVIA LIQUID CONCENTRATE

Convenient to use and carry around with you in your pocket or handbag.
Perfect way to naturally sweeten hot and cold drinks with just a few drops.
Stevia Liquid has 100 servings per 15ml. 3-4 drops of liquid equals sweetness 1 tsp of sugar.

NIRVANA ORIGINAL STEVIA TABLETS 'SUPER STRENGTH'

All-natural, healthy sweetener developed for easy use to sweeten hot beverages. "The Original" Stevia product made with Nirvana's speciality non-bitter Stevia. *1 tablet equals sweetness of 1 heaped tsp of sugar (7g). 1 mini- tablet equals sweetness of 1 level tsp of sugar (4g).*

NIRVANA STEVIA SLIM SPOONABLE

Highest quality ACO certified organic Stevia extract blended with Erythritol.
100% naturally derived sugar substitute that looks and can be used just like sugar.
